

VECTOR OPTICS

**Maverick 3x26 Magnifier & Scrapper 1x25 Gen II
SCMF-10 + SCRD-46
Red Dot with 3x Magnifier**

Features

- **Crystal Sharp Clear, Fit Various Red Dot Scopes, W/ 30mm Flip Side QD Mount Ring, Diopter Compensation, w/ Great Gift Package**
- **Vector Optics has finally developed a magnifier with exceptional clarity and fully adjustable. The reticle can be centered even if the height of the red dot or sight is at a different height.**
- **It is truly one of the best magnifiers on the market. Paired up with excellent flip to side mount that holds tight yet at the push of a button can disengage the magnifier to be flipped to the side.**
- **The 3x magnifier with flip to the side mount converts the sights instantly into a sighting system for longer range targeting and tactical advantage situations.**
- **This professional grade Vector Optics magnifier is adjustable for windage and elevation to better align with the red dot sight without changing the actual ZERO of the sight. The flip mount when pushed rotates to stay on and off line of sight quickly. It is just that you need to be sure the center height of the mount used matches that of the red dot sight.**

Specifications

SCMF-10

- Magnification: 3x
- Objective Lens Dia: 26mm
- Exit Pupil: 7mm
- Length: 108mm (4.2 inch)
- Height: 36mm (1.4 inch, from the base to the ring center)
- Weight (net): 325g (11.65ounce, with mount)
- Eye Relief: 60mm (2.4 inch)
- Field of View (ft@100yds):49 ft
- Optics Coating: Fully multi-coated
- Shock proof that is designed for real fire caliber
- Can be adjusted
- High-durability aircraft grade 6061 T6 aluminum alloy in black matte body covered with rubber
- With SCTM-17 30mm flip to side QD mount ring
- Fast focus eyepiece at ocular lens adjustment
- Free fitting involved: 30mm flip side mount, lens cap, cleaning cloth and hex keys etc

Specifications

SCRD-46

- Eye Relief: Free
- Optics Coating: Multi-coated
- Parallax: <1MOA @ 100 yards
- Parallax Setting: 100 yards
- Elevation Range: >45MOA
- Windage Range: >45MOA
- Dot Size: 3MOA
- Dot Intensity: 8 levels + 2 NV levels
- Working Temperature: -20~+50°C
- Material: Aluminum alloy
- Battery Type: CR2032
- Runtime: >50,000 hour weakest visible dot
- Finish: Black matte
- Mounting: Weaver & picatinny
- For close-in work and all application tactics, hunting & sporting
- Motion sensor, 2 minutes auto shut-off, smart awake feature even when slightly moving
- IPX6 water proof (1 meter 30 minutes), shock proof to 800G 500 circles
- Weaver mount made of aluminum alloy 6061 T6 in durable black matte finish
